## ADRENALINE ADVENTURE

For off-road enthusiasts your adventure begins right here in the saddle!

The area is renowned for its steep, slippery, rooty descents with a massive range of styles and features. From the Sheepskull with its bombholes and rutted sections, to the huge drops and jumps on GBU (Good, Bad and Ugly) – you will have an awesome day on our trails.

The downhill tracks are 3-4 minutes, but you will manage a huge number of runs whether you are riding the uplift or pushing/riding up and sessioning sections. A number of “Enduro” lines are popping up right across the hill and will have all the long travel riders grinning from ear to ear. They are hard to find but well worth the effort.

There are a number of routes for the experienced down hill riders with names like Ski Run, Corkscrew and The Good The Bad and The Ugly - you get the idea! There is also a choice of two skills loops to help you develop your off-road cycling skills.

Guided mountain biking and training is also available to help you make the most of the area’s best trails.

Road riders can look forward to winding country lanes and short hill climbs.

## FAMILY EXPLORATION

The Family Cycle Trail is a great way to see the Forest. A waymarked circular route mainly on former railway lines with connecting routes to villages and picnic sites.

The Family Cycle Trail is an 11 mile circuit with links to Forest towns and villages. It's a gravelled track that is suitable for riding all year round.

Perfect for a family ride full of fun, it has bumps and features for the more independent children to explore.

It starts in the Cannop Valley from Pedalabikeaway and takes you along the old Severn and Wye railway line passing former stations at Drybrook Road, Cannop Wharf and Speech House. Remnants of former coal mines can be seen at Foxes Bridge, Lightmoor and New Fancy.

Why not download the Hidden Heritage App which as you ride along the cycle path uses the GPS to tell you what is on the route. It shows pictures of the location as it is today and as it was many years ago when the mines were working and the railway was still running.

If you don't have your own bike, they can be hired from Pedalabikeaway Cycle Centre or Dean Forest Cycles.

## NATURE'S INFLUENCE

Fantastic public art can be found along the Forest of Dean Sculpture Trail, while the annual Forest & Valley Open Studios event lets visitors take a peek inside some of the most creative spaces in the UK.

All this and dozens of charming galleries, luscious gardens and arts centres tucked away in hamlets, towns, and villages.

Some stunning pieces of pottery can be acquired in the area, with numerous local studios, inspired by the beauty of the surrounding nature. Be inspired at Nature in Art, admire at Wobage Makers Gallery or get stuck-in throwing a pot at Hot Pot Pottery. Visit the unique Mary Rose Young

Pottery, with its 'Paint Your Own Plate' point, where you can utilise the 'Mary Rose Technique' that produces such vivid colours.

Taurus Crafts features a diverse variety of small artisan businesses most of whom make and sell from their workshops. There are regular courses and events for those wanting a more "hands-on" experience.

The area offers the perfect location for any keen photographer. Improve your camera skills with Master Photographer, David Broadbent, at Forest of Dean School of Photography.

Go to [visitdeanwey.co.uk](http://visitdeanwey.co.uk) for more 'sip, snack, snooze' ideas.

## SPOT A DEER

Fallow deer are the principal species here, although roe and the delightful muntjac can also be seen. Only the males have antlers and they are called bucks. Come the spring they will shed them and grow new ones.

You may not see deer on your walk, but they are there hiding quietly in the woods waiting for you to pass by... if you're lucky and quiet you may just spot them.

# AT ONE WITH NATURE

The rich mixtures of woodland, meadows, cliffs, rivers, lakes and nature reserves are home to an abundance of wildlife and plants all year round.

## SPRING DELIGHTS

Spring is a fabulous time to visit, with the brilliant green leaves of the new beech, while the bluebells, daffodils and wild garlic paint the ground with a spectacular carpet of colour. The orchards turn pink and white with apple, pear and plum

blossom, and you can literally smell May in the blackthorn and elder hedges. Among our villages there are many old orchards with rare fruit trees including the Blakeney pear, Blaisdon red plum and Severn bank apple.

# LEAF PEEPERS WELCOME

The Forest of Dean and Wye Valley is quite simply one of the best places in the UK to enjoy the autumn pursuit of Leaf Peeping.

'Leaf Peeping' is a term growing in popularity from North America. It is all about strolling through autumn woodland and admiring the foliage as it turns from summer greens to the yellows, reds and golds of autumn.

With over 20 million trees spread across 200 square miles, the area is heaven for Leaf Peepers. Home to a wide variety of majestic oaks, ashes, birches, beeches, larches, sweet chestnuts and many more, the foliage lights up as the days start to draw in, creating an indulgent feast for the visual senses.

## THE BEST VIEWS

May Hill is the best viewpoint to catch the best sunrises / sunsets in the Forest of Dean. It's one of the highest hills in the area with a prominent near circular mound and a crowning clump of trees which makes it easily to identify and find.

There are views from the top for many miles in all directions and on a clear day you can see up to 12 other counties! The trees atop May Hill were planted in 1887 (and replenished 1977) and have been recorded several times throughout history.

To discover our 'Leaf Peeping Drive' and full Leaf Peeping Guide, complete with leafy escapes, autumnal activities, forest feasts and more, go to [www.visitdeanwye.co.uk](http://www.visitdeanwye.co.uk)

## WELCOME TO THE WORLD OF 'STEPPING THROUGH film'

A place where all things film-related are explored through visiting the real locations where all of our favourite films were shot around the world. My name is Tom and film has been a huge passion of mine since I was small. It's led me to all sorts of wonderful places and it's been such a blast to follow in the footsteps of my on-screen heroes – both characters and actors alike! After watching everything from Mary Poppins to Star Wars, the feeling of standing where these classic scenes were born never gets old. The beauty of seeing

the invisible in the everyday makes each exploration exciting and every location unique. From New York to London, to the magical depths of Wales and its stunning scenery... the list of locations are endless and can be visited by anyone who wants to experience the same feelings of nostalgia, passion, and escapism that I do every single day. Puzzlewood, is a great starting point to see some cinematic delights.

Enjoy exploring to all those passionate enough to venture out into the unknown.

# HAVE YOU WATCHED 'SEX EDUCATION' ON NETFLIX?

If not, why not? It's such a wonderful show full of laughs and life lessons and believe it or not. Here's a collection of just some of the scenes that you can visit as part of a little tour of the series:

**1** Otis & Eric use this bridge quite often during the show to get about. It's beautifully placed with stunning hillsides surrounding it so certainly a #1 spot to visit.

**2** Otis & Maeve shopping in the lovely little shop called Brown's Newsagents – a small Londis in reality! This location is used a lot in the show and is just a short drive from the bridge. Many characters end up visiting here and is slowly becoming quite the stop-off point for fans!

**5** An emotional scene atop St Briavels Mount with Jackson & his adoptive mum, Sofia as they discuss life sitting on a bench – which is still in the same position. Once again, this location has such a beautiful view.

**6** This location is of a scene so quick that you might blink and miss it. Anwar & Olivia are seen exiting a train at Parkend station during the night. This is a lovely location as the stop is quite idyllic with quaint village vibes.

**3** In this scene we watch Otis and Maeve wonder along a pathway covered with over-arching trees leading to a beautiful location for some photoshoots!

**4** The two characters in this scene are Jackson & Viv. They're seen walking along the Redbrook Bridge which, again, has a stunning view down towards the river and surrounding countryside.

**7** The final location is of the iconic red chalet, home to Otis and his mother in the show. It's quite a sight to witness however the grounds are private so I'd suggest no poking around here!

# A RICH HERITAGE

## KING OF THE CASTLES

Did you know that we have more castles per square mile than anywhere in the UK? Quite an incredible fact really considering how many castles the UK has!

There is a strong history of conflict and defence, as well as craftsmanship and religion. From Tintern Abbey to Goodrich Castle, Monnow Bridge to Offa's Dyke, the Wye Valley has a wealth of heritage to see and explore to this day. With its beauty it is easy to forget why some of these fortifications were built, but the arrow slits, cannons and dungeons remind us of their history too.

Our heritage is an important part of what makes this area so special.

A former royal hunting forest, the Dean has a long past as a source of timber for ships and building, coal, charcoal, iron ore, ochre and limestone. Archaeological studies have dated the earliest use of coal to Roman times. The area was inhabited well before that in Mesolithic times and there are even remains of megalithic monuments.

Many important sites have been preserved, from the pick axe marks on the walls at Clearwell Caves to the underground mine tours at Hopewell Colliery, the monuments to fallen miners in towns and in the forest, to the museums which tell their story such as the Dean Heritage Centre, to the old railway lines and bridges now cycle paths and footbridges and the Dean Forest Railway still running steam trains through the forest today.

Visit [visitdeanwe.co.uk](http://visitdeanwe.co.uk) to find out more about the area's history.

## THE TOWNS

Small towns help make the Forest of Dean and Wye Valley a delight.

**COLEFORD** town centre houses many buildings of historic interest. Coleford boasts its very own cinema, two excellent golf courses, a nearby off-road driving centre, plus a good range of shops, restaurants, cafés and hotels.

Just outside the town are some superb family attractions, including Perrygrove Railway, Puzzlewood and Clearwell Caves.

**LYDNEY** has a range of leisure facilities and tourist attractions. Lydney Docks has recently been restored and is a great location for birdwatching. The popular Dean Forest Railway operates regular steam trains from Lydney. Taurus Crafts is situated just outside the town.

**NEWENT** town centre retains its old charm with shops and houses dating back many centuries. A number of medieval black and white buildings feature in the town including the old wooden Market House.

**ROSS-ON-WYE** is a small market town in the south of Herefordshire offering excellent places to stay, eat and shop. Set in beautiful countryside it's a great place for fresh air, walking and canoeing. Much of the town is a conservation area and at its heart is the historic Market House, a listed Ancient Monument, built of the Old Red Sandstone.

**USK** is a hidden gem in the county of Monmouthshire. An old Roman town, it sits on one of the finest salmon fishing rivers in the country, the River Usk. Its 11th century castle is the backdrop for an enchanting, romantic garden. It's the oldest town in Wales (circa 55 AD).
